

## ***IMAGINiT Technologies and Bluebeam Partnership Enables Better Collaboration for Design and Make Companies Across North America***

**BALTIMORE, MD – June 28, 2024** — [IMAGINiT Technologies](#) now offers [Bluebeam's](#) industry-leading solutions for the architecture, engineering, construction (AEC), and manufacturing industries providing customers with a single partner for all their Bluebeam and Autodesk subscriptions. As IMAGINiT continues to expand its Autodesk software adoption, implementation and support services, customers can enjoy a 'one-stop-shop' for design engineering solutions that streamline project workflows and enhance collaboration.

"Our partnership with Bluebeam represents a significant step forward in our mission to provide customers with integrated, cloud-powered expertise and solutions that unlock the full potential of their data," says Bill Zavadil, president and chief operating officer, IMAGINiT Technologies. "By combining Bluebeam's powerful collaboration tools with our team's expert level knowledge of Autodesk products and platform, we are improving our customers' project outcomes across the AEC, manufacturing, utilities and government sectors."

Bluebeam's tools are widely recognized as the industry standard for digital project collaboration, enabling users to easily create, mark up, and share PDF documents. They allow teams to streamline project workflows, reduce paper usage, and improve communication among project stakeholders. IMAGINiT offers training and implementation services for Bluebeam products as well as self-paced learning content delivered via their ProductivityNOW learning management platform.

"We're excited about the value that IMAGINiT brings to Bluebeam customers not only because of their extensive footprint in the US and Canada, but also because of their deep knowledge across various industries," says Curt Bramel, Bluebeam's senior director of global channel sales. "Because IMAGINiT's customer base spans across AEC, manufacturing, utilities and government sectors, they have the expertise and credibility to recommend technology that helps customers solve industry specific challenges which presents an opportunity to expand the use of Bluebeam products in the design and make community."
